Our New Majors Data Science
by Calvin Scott
9/18/25 (Version #1)

Characters: Shane Reese, Data Science Students
Setting: BYU campus classrooms
Props: A computer with R installed
Sound Effects: Motivational business music

LIGHTS UP:

MUSIC: motivational business music.

Pan down from sky to reveal SHANE REESE walking towards us. He stops and addresses the viewer.

<div align="center">

SHANE
(professional and excited)
Hello! My name is Shane Reese, and I wanted to take the time to tell the world about the new majors BYU is introducing this year. As part of our aim to provide students with an intellectually enlarging education, we are introducing exciting new programs that we hope students will find relevant and meaningful to the world they are entering.

</div>

A bunch of kids at a computer looking at r code on a laptop and talking.

<div align="center">

SHANE
For students interested in the way data and math shape the choices we make in the 21st century, we're introducing the "data science" major. Insert some other data science sentence here.

</div>

A science looking classroom but students are still looking at R on a laptop.

<div align="center">

SHANE
For those who want a more physical approach to this discipline, we recommend our new "applied physics: data science" major. Another sentence about data science.

</div>

A more future looking classroom, still looking at R.

SHANE
    We also have data science: machine learning for those who machine data
                            learning in science.

Academic old money philosophy classroom students looking at R.

                                SHANE
              We are also introducing data science: philosophy

Language classroom with flag, students looking at R.

                                SHANE
              We also have Spanish translation: data science emphasis

Plants classroom, farmers looking at R.

                                SHANE
                        Data science: Forestry

Dance studio, dancers looking at R.

                                SHANE
                    Interpretive dance: data science

Theater stage, thespians looking at R.

                                SHANE
              And Theatre art education K-12: data science

Hallway Shane is walking down.

                                SHANE
                        As well as many more.

A scrolling list of every major at byu plays by with data science
added to it as Shane looks at the camera with a distant empty stare.

                                SHANE
    As you begin your data journey at science BYU, we hope that science
            can data as you data science data data science science.
